### DETAILED ACTION

Prosecution on the merits of this application is reopened on claims 5, 6, 21, 51, and 52 considered unpatentable for the reasons indicated below: See rejection below based on references newly submitted by Applicant.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5, 6, 21, and 52 rejected under 35 U.S.C. 102(b) as being anticipated by Sato et al. (5,530,237).

Regarding Claims 5, 6, and 21, Sato teaches an apparatus for automatically focusing a microscope comprising, an objective lens 2, an illumination beam source 10 emitting visible light, an imaging lens 3, an autofocusing light beam source emitting infrared light 17, a beamsplitter 7, a detection system lens 18, and an autofocus detecting device comprising, sensor 22, an iris 21, an auxiliary beam splitter 19, a auxiliary light sensor 20, and a focusing correction system which determines the displacement of the image plane from a preferred reference plane (Col. 5, lines 24-27; Col. 6, lines 53-59) (See also Fig. 1).

Art Unit: 2878

Regarding Claim 52, Sato teaches a microscope comprising, a plurality of lenses 2, 3, a probe arm 1, a support 25, an object S, an optical output device 5, wherein a main optical axis is unfolded (See Fig. 1).

### ***Allowable Subject Matter***

Claim 51 is allowed.

The following is an examiner's statement of reasons for allowance:

Regarding Claim 51, the prior art of record fails to teach or reasonably suggest a microscope for viewing an object plane wherein, in addition to the other related features of the claim, the object is placed as recited in Claim 51, lines 14-16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
